

POLICY POSITION

4. Agricultural Export Trade

Recommendations

The Southern Legislative Conference urges our congressional delegation members to remove all trade barriers on our agricultural, livestock and poultry products.

Secondly, we urge that all countries enjoying favorable balance-of-trade relationships with the U.S. give priority to our products for import, when competitive.

Furthermore, Congress is urged to monitor the performance of these requests, and to develop alternative solutions if necessary.

Adopted by the Southern Legislative Conference on July 24, 1985.
